

Pressacavi allargati in ottone nichelato Expanding brass cable glands nickel plated

Grado di protezione: IP 68
IP Rating: IP 68

Certificazioni / Approvals:
EN 62444
CE
RINA

Applicazione Application

Pressacavi allargati in ottone nichelato con gommino di serraggio in TPE e anello "O" ring sulla filettatura.

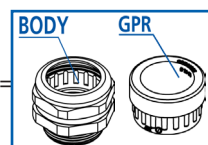

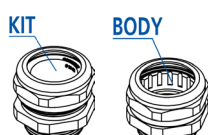

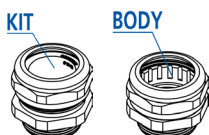

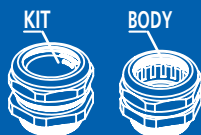

La funzione di questi pressacavi consente di unire cavi di grosso diametro con filetti di piccole dimensioni. Questo pressacavo annulla l'utilizzo di riduzioni che influirebbero negativamente sulla tenuta meccanica e sul costo finale. I cavi con diametro esterno uguale o superiore al diametro B di passaggio devono essere liberati dalla loro guaina di protezione esterna.

Note: I gommini sono facilmente riconoscibili grazie al codice articolo stampato sul prodotto.
Colore: blu RAL 5005

Expanding brass cable glands nickel plated with TPE sealing and "O" ring on thread.

These cable glands join great diameter cable with small thread, avoiding the addition of components such as reducers, improving mechanical stability and reducing costs.
Cables with external diameter equal or higher to diameter B must be clean from outside plastic coating.

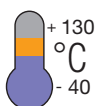

Remarks: Sealing inserts are easily recognizable thanks to the Part n. printed on the product.
Color: blue RAL 5005.
